WORK EXPERIENCE

Quality Assurance Engineer
Interra systems

03/2021 - 10/2022   *Noida Uttar Pradesh*

Achievements/Tasks

- Aided and delivered improvements in a real-time content monitoring system used by Netflix and Jio.
- Identified and reported over 800 bugs on Jira, resulting in improved software quality.
- Successfully conducted integration testing of custom alerts into third-party platforms such as Slack and MS Teams.
- Designed and executed Test cases for web application. bug/sub-defect reporting, bug verification, performance testing, user guide verification, browser memory automation.
- Concurrently worked on Linux and Windows, illustrating my versatility and adaptability.
- Conducted rigorous API testing using Postman, ensuring the seamless integration and functionality of APIs within the system.

PERSONAL PROJECTS

Merchandise web store (04/2023)
- Merchandise store website developed using HTML, CSS, and JavaScript. It is responsive and dynamic. The page structure was defined using HTML, all the elements were styled using CSS and JavaScript was used to make it dynamic. Key optimization includes code minification and image compression. demo

Queue runner (05/2023)
- React application to queue and manage YouTube and Twitch clips. The application allows users to add clips to a queue and play them in a sequential manner. React functional components were used to define the logic and appearance of elements. OAuth authentication was used to authenticate user login. react router was used to implement multiple pages. demo
