Gaurav Chander

Software Engineer

I am a certified Software Quality Assurance Engineer with more than 1 year of experience in quality assurance processes and methodologies. I possess a practical mindset, a friendly nature, and an appreciation for cultural values. I prioritize accuracy and politeness over speed in the first instance. I have good communication skills that would promote transparency and productivity within the organization.

WORK EXPERIENCE

Quality Assurance Engineer
Interra systems

03/2021 - 10/2022

Achievements/Tasks

- Aided and delivered improvements in a real-time content monitoring system used by Netflix and Jio.
- Identified and reported over 800 bugs on Jira, resulting in improved software quality.
- Successfully facilitated integration of custom alerts into third-party platforms such as Slack and MS Teams, improving communication and real-time monitoring capabilities.
- Conducted rigorous API testing using Postman, ensuring the seamless integration and functionality of APIs within the system.
- Concurrently worked on linux and windows, illustrating my versatility and adaptability.
- Activities including design test cases; test design documentation; bug/sub-defect reporting; bug verification; user guide verification; long run verification; browser memory automation.

PERSONAL PROJECTS

Merchandise store website (04/2023)
- Merchandise store website developed using vanilla HTML, CSS, and JavaScript. It is responsive and dynamic. The page structure was defined using HTML, all the elements were styled using CSS and JavaScript was used to make them dynamic. Key optimization includes code minification and image compression. demo

React application (05/2023)
- React application to queue and manage YouTube and Twitch clips. The application allows users to add clips to a queue and play them in a sequential manner. react components were used to define the logic and appearance of elements. OAuth authentication was used to authenticate user login. react router was used to implement multiple pages.
